タイトルにもなっているとおり、本作の主人公。ガンダムにも負けない、愛しさと切なさと心強さを備えている。

高見沢
本作の真の主人公。驚異のツッコミ力に、『量産の暁には、連邦軍などあっという間だ』とも言われているとかいないとか。

加藤
本作影の主人公。単行本の打ち合わせで訪れたステーキ屋さんでは、美味しいお肉の話ばかりで加藤の話は一切出なかったと言われている。

TAKAMI-ZAWA

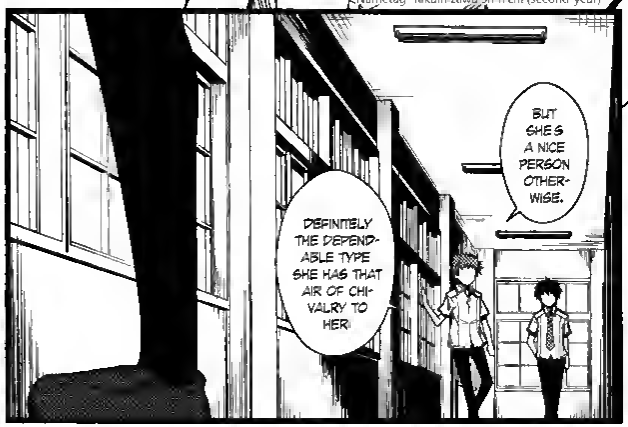
HAVE YOU HAD A CHANCE TO SAY HI TO INTEL-SENPAI YET?

Mt. Taro Public High, Boys' Dorm, ***Konjac House***

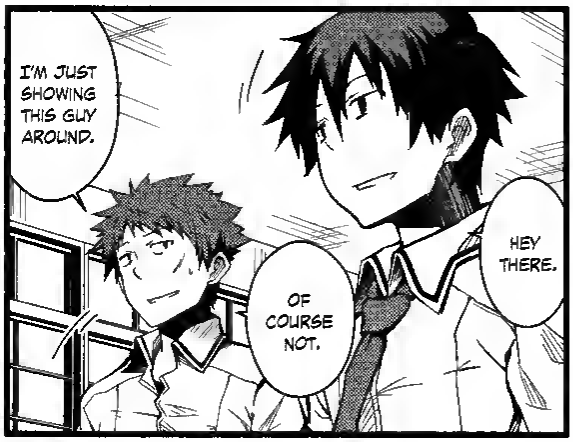
YOU PROBABLY HAVEN'T HEARD OF HER YET, BEING NEW HERE AND ALL.
ANYWAY, INTEL -SENPAI
IS A THIRD-YEAR WHO'S ALSO OUR DORM'S RESIDENT ADVISER.
加藤正也 (高2)

Nametag: Katou Masaya (second year)

Nametag: Takamizawa Shin'ichi (second year)

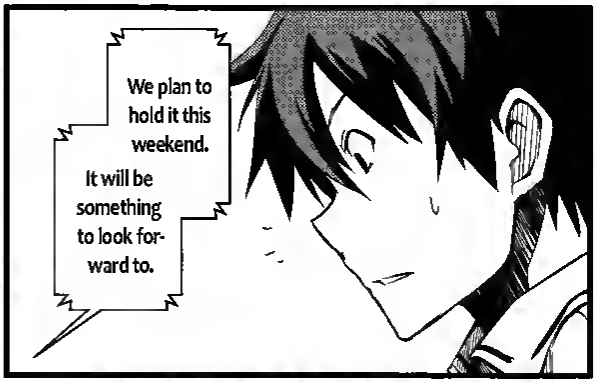


This is the chapter's first page here apparently



I was making preparations for your welcome party just now.
So you are Takamizawa-kun, the transfer student?

Ah, I should introduce myself first anyway.
8bit

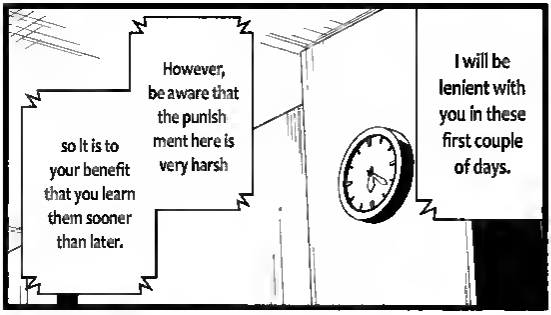


We plan to hold it this weekend.
It will be something to look forward to.

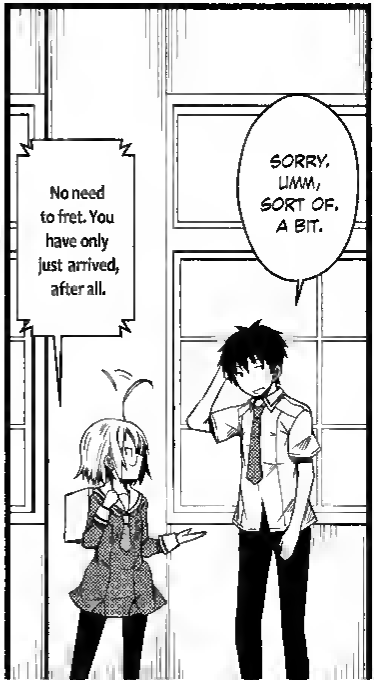
I am Intel, the resident adviser.
I cordially welcome you to our dormitory.

By the way, Takamizawa-kun
have you familiarized yourself with the rules?
.....?
8bit

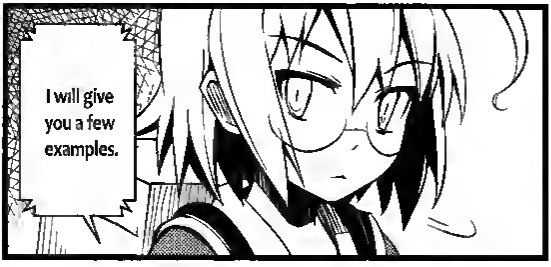
Takamizawa -kun?
AH... OH, RIGHT!!



I will be lenient with you in these first couple of days.
However, be aware that the punish ment here is very harsh
so it is to your benefit that you learn them sooner than later.



SORRY, UMM, SORT OF, A BIT.
No need to fret. You have only just arrived, after all.



I will give you a few examples.

Well, yothen never brought me any lackeys to order around, so I ended up doing everything myself. Except redraws. Not gonna waste my time trying. People allergic to kana and kanji should just drop Japanese comics as a hobby altogether.

Anyway. I just wanted something to screw around with... like translating *yoroshiku* in one of the earlier pages as "Y HELO THAR." Hey, I have my needs, and I swear, if that ahoge could talk, that's what it'd say. If you don't like all the random shit I added in the margins throughout this chapter, just open up mspaint and erase them yourself.

As I write this, I haven't even read the next chapters, so don't ask me what happens later. And no, I did not forget to translate the character guide on the table of contents. I left it as is because I didn't feel like translating it. Because you have the goddamn mango in front of you anyway. So yeah.

I should also point out that if Intel sounded formal in her speech... well, I was going for "awkwardly mechanical" instead of "formal," but I guess those tend to overlap every now and then.

Extra page after this one. Not AMD-kouhai, though, sorry.

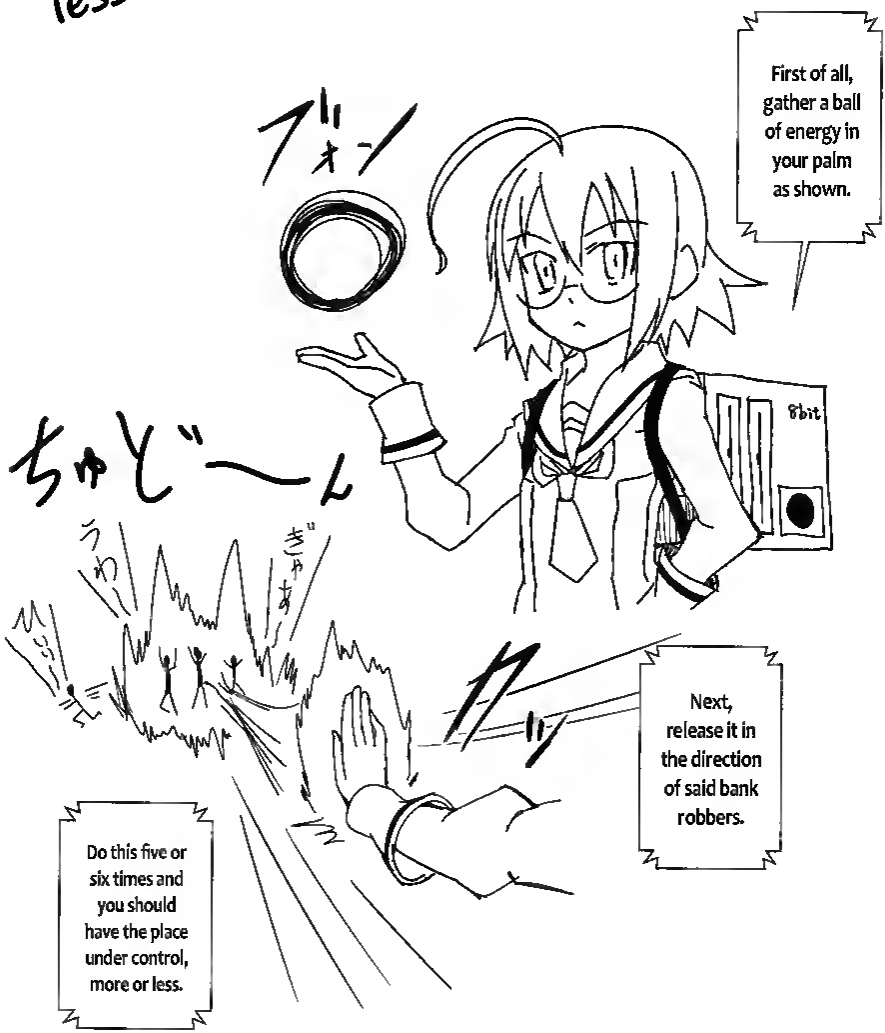
HOW TO BEAT BANK ROBBERS



First of all, gather a ball of energy in your palm as shown.
8bit
Next, release it in the direction of said bank robbers.
Do this five or six times and you should have the place under control, more or less.
